

Let us pray

Lord Our God

We adore you

When we look around us

We see the work of your hands.

On a cold frosty morning

Or a gentle summer's day

We wonder why

Just why we have been chosen to share such
delights

We don't know

We cannot understand the mysteries of you

All we can do is join with all creation

In sending our praises to you.

Not for what you have done for us

But just because you are God

There is nobody more worthy of praise than you

You are our rock

You gave us living water

Through your son, Jesus Christ

Help us always
to turn our minds away from ourselves
And help us focus on you
And your forgiving accepting love

Your love
reassuring us gently when we need it
Your love
challenging us when we settle back feeling it could
never be better
Your love
helping us to listen to those around us when we
can't or don't listen.

Giving us faith to perceive your glory and so
strengthened by the grace of your son revealed so
that
We may change into his likeness

Amen
